<http://127.0.0.1:8000>

To manage content, first log in using this <http://127.0.0.1:8000/login>, and the login form will appear as shown below.

The screenshot shows a web browser window with the address bar displaying `127.0.0.1:8000/login`. The page has a blue header with the word "Business" on the left and "Login Register" on the right. In the center, there is a white box titled "BUSINESS SIGN IN". Inside this box, there are two input fields: "Email Address" and "Password". Below these fields is a blue button labeled "Login". The Windows taskbar at the bottom shows various application icons and the system clock indicating 12:01:01 on 26/6/2024.

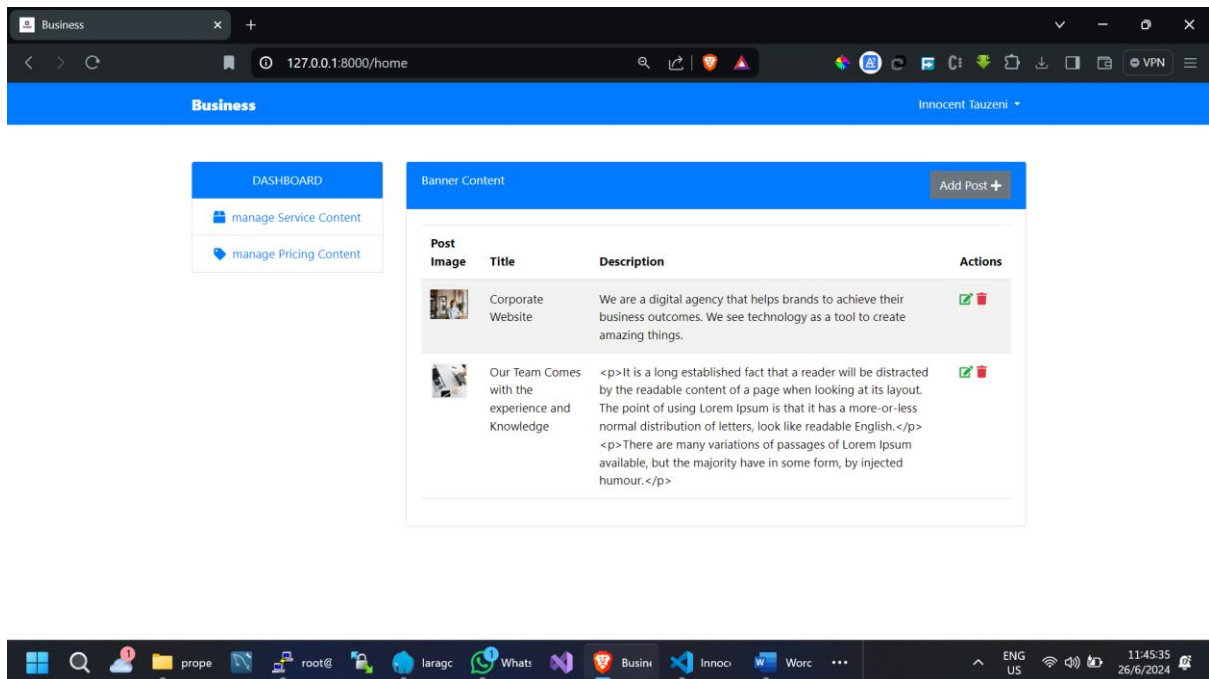

If you don't have an account, you can create one as shown below.

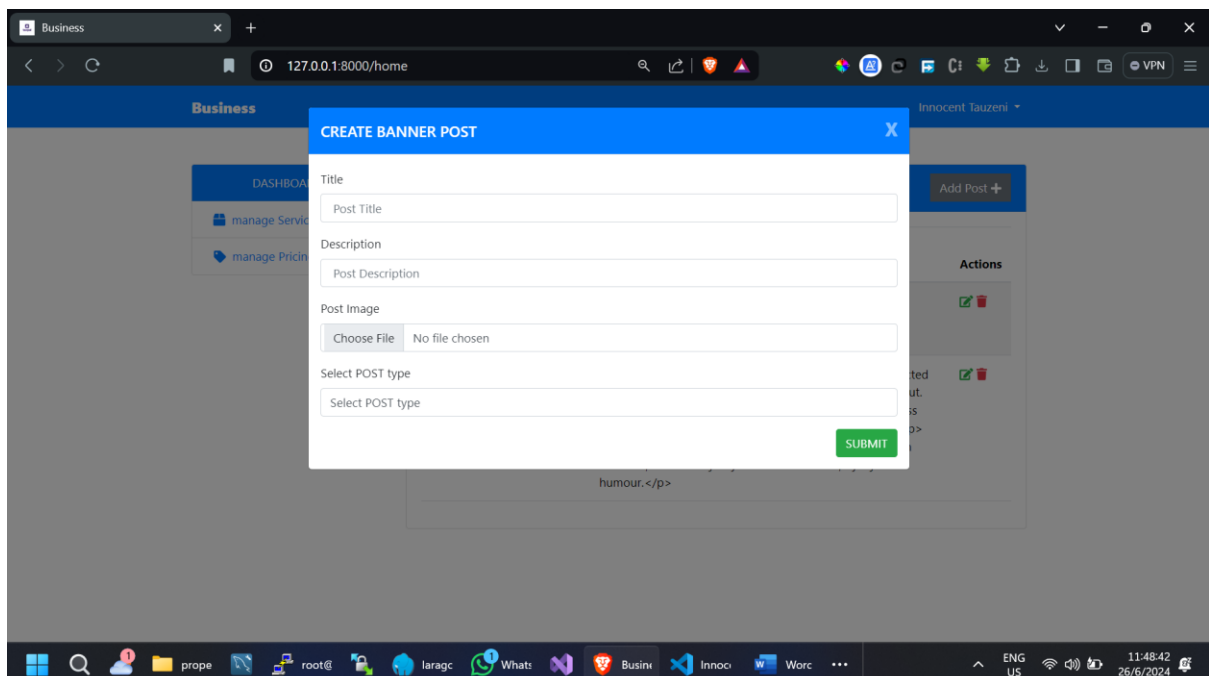

The screenshot shows a web browser window with the address bar displaying `127.0.0.1:8000/register`. The page has a blue header with the word "Business" on the left and "Login Register" on the right. In the center, there is a white box titled "BUSINESS CREATE ACCOUNT". Inside this box, there are four input fields: "Name", "Email Address", "Password", and "Confirm Password". Below these fields is a blue button labeled "Register". The Windows taskbar at the bottom shows various application icons and the system clock indicating 12:02:22 on 26/6/2024.

Admin Panel screenshots

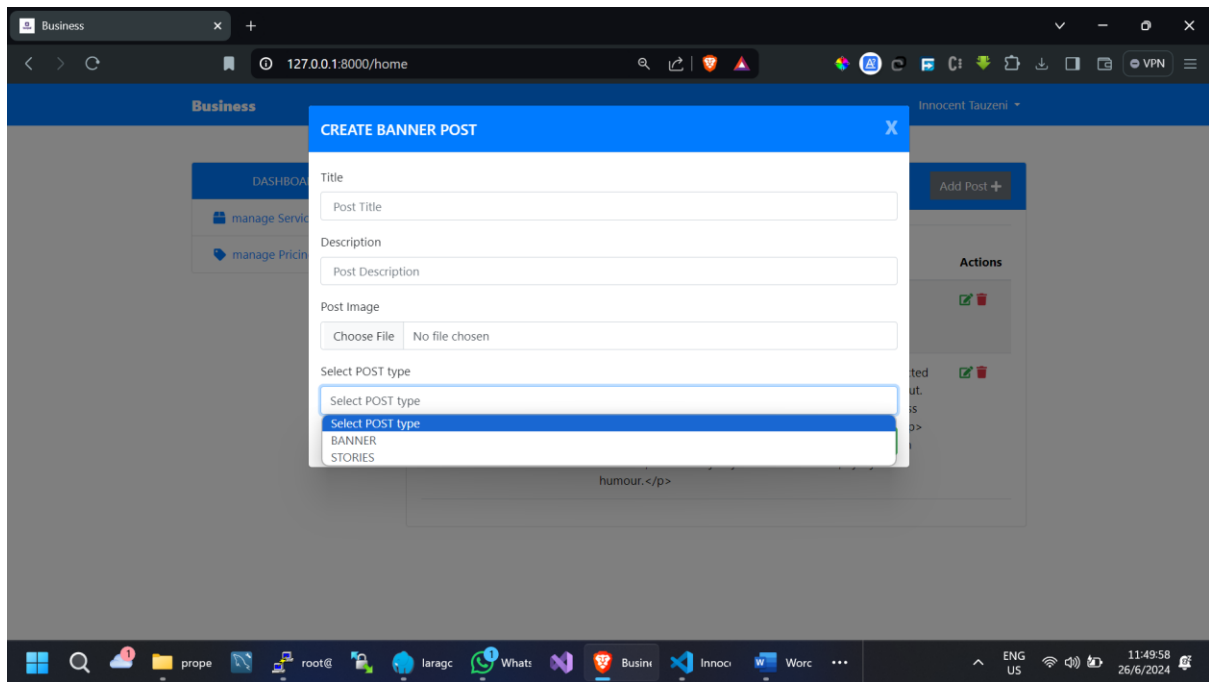

When a user logs in, he or shee will be redirected to this page where they can manage Banner, Pricing, and Services content. The screenshot below shows the dashboard.

For the Banner content, add two items: one for the banner and another for Our Stories. Click the gray "Add Post" button, and the form will pop up as shown below.

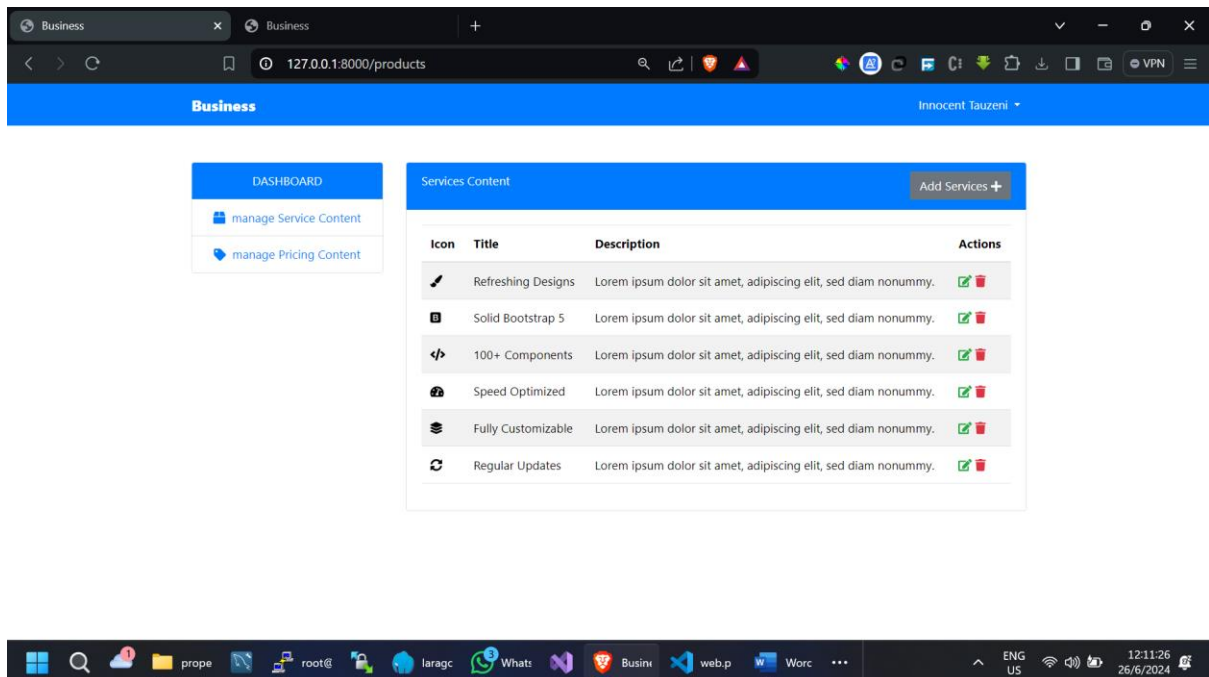

Here, you choose whether you want to create banner content or our story, as shown below.

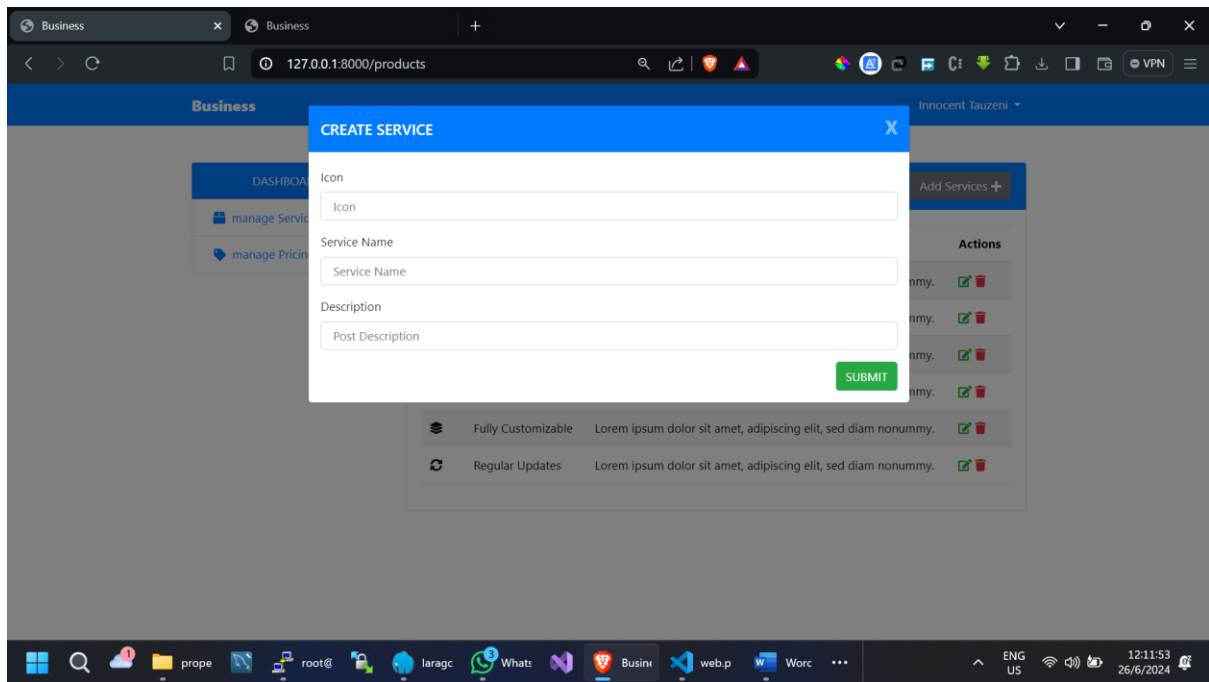

So, if you create content, the home page content will be replaced. For example, if you choose type BANNER, then the banner content will change as well.
